www.concern.net
www.ifhv.de

- Extremely alarming ≥ 50.0
 - Alarming 35.0–49.9
 - Serious 20.0–34.9
 - Moderate 10.0–19.9
 - Low ≤ 9.9
 - Not included or not designated
(see Appendix A in the full report for details)
- * Provisional severity designation
(see Table A.3 in the full report for details)

Source: Authors.

Note: For the 2025 GHI, data on the proportion of undernourished are for 2022–2024; data on child stunting are for 2024; data on child wasting are for the latest year in the period 2020–2024 for which data are available; and data on child mortality are for 2023. GHI scores were not calculated for countries for which data were not available and for countries that did not meet the GHI inclusion criteria; see Appendix A for details. The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by Welthungerhilfe (WHH), Concern Worldwide, or Institute for International Law of Peace and Armed Conflict (IFHV).
